Why are there different prices for the same product? Is it legal?

Myntra is an online marketplace platform that enables independent sellers to sell their products to buyers. The prices are solely decided by the sellers, and Myntra does not interfere in the same. There could be a possibility that the same product is sold by different sellers at different prices. Myntra rightfully fulfils all legal compliances of onboarding multiple sellers on its forum as it is a marketplace platform.

How can I contact any seller?

I saw the product at Rs. 1000 but post clicking on the product, there are multiple prices and the size which I want is being sold for Rs. 1600. Why is there a change in price in the product description page?

Myntra is an online marketplace, and multiple sellers could be selling a particular style at different prices as may be set by each such seller respectively. The product price on the listing page of the platform, may not always reflect the lowest price for that particular style. This is because the seller whose price is displayed on the list page is selected based on the application of a number of parameters and price is only one such parameter. However, once you land on the product display page on the platform for a specific style, you will have access to the price offered by all sellers on the platform for the relevant style.

We at Myntra or our affiliate logistics partner never ask for such confidential and personal data. Why am I asked for password after entering OTP while trying to login?

Myntra's security policy sometimes requires you to enter your password if you have not logged in with OTP for a very long time. This is done to ensure that no one else can access your account after you have discarded your mobile number and it is assigned to someone else as per government policy.

How does the COD (Cash on Delivery) payment option work?

Myntra's Cash on Delivery option allows you to pay order value at the time of delivery for all orders between Rs. 299 and Rs. 49999. Your existing limits will be revised once, there is a delivery or order rejected against your account, from the new limit implementation logic, if required. To pay for any order using Cash on Delivery (COD) mode of payment, please select the 'Cash On Delivery' option on the payment page. Cash on Delivery option is available only in selected pincodes. However the COD limit may differ from customer to customer depending upon the order rejection percentage from a particular customer's registered email id. For avoidance of doubt, 'Order Rejection Percentage' shall mean any undelivered orders which are returned from the address provided by the customer even, after three successful delivery attempts. In event of COD limit breach, your order will be cancelled and you will have to place a new order using Pre-payment options.

Further, the COD limit for any user may get decreased to Rs. 24,999, Rs. 1500, Rs. 0 basis on order rejection percentage and can be reset to Rs. 49,999 basis on Order acceptance percentage and number of prepaid orders placed, post limit decrease.

Does Myntra accept Rs. 2,000 currency notes for Cash on Delivery (COD) payments?

Effective September 20, 2023, we will no longer be able to accept Rs. 2,000 currency notes for Cash on Delivery (COD) orders, in compliance with the guidelines provided by the Reserve Bank of India on May 19, 2023.

I have placed a Cash on Delivery (COD) order and intended to pay with Rs. 2,000 notes, but the Delivery Associate is not accepting them. What should I do in this situation?

As per the RBI laid guidelines, Myntra is not accepting Rs. 2000 notes for COD, effective September 20, 2023.

Instead, you can choose a UPI method of payment or use alternate currency notes to make the payment.

In case you are unable to arrange for an alternate currency, please consider rescheduling your delivery. Request the Style Delivery agent to reattempt the delivery.

Why can't I see the COD option on my payment page?

If you do not see a COD option on your payment page, this may be due to one of the following reasons:

1. Your order value may be less than Rs. 299 or over Rs. 49,999.
2. You may have placed another order using the COD option which is pending delivery. If the amount of this order when added to your current order exceeds Rs. 49,999, then the COD option will be disabled temporarily. For all Tanishq products COD limit is Rs. 15,000

What is COD limit?

Myntra reserves the right to determine the COD limit for every customer and/or orders. The COD limit includes any undelivered, unpaid orders and any new orders being placed.

This means that with effect from September 30th, 2022, your original card details will be replaced with a code known as a 'token' in the system. You can choose whether you want to tokenize your card or not.

Does this mean I have to enter my card details everytime I transact on Myntra?

No, the RBI has permitted us to securely tokenize card details after receiving approval. Myntra can tokenize the card with your permission and you can then use the secured card for every subsequent purchase without having to enter details each time.

What happens if I don't tokenize my card?

If you don't tokenize your card, you will be required to enter card details such as card number, expiration date and CVV for every payment you make on Myntra with that card.

Do I need to tokenize every card I have separately?

Yes, your consent is only for one unique card, So, all your cards must be tokenized separately. There is also no limit to the number of cards you can tokenize in your name.

I have already tokenized my card on another website/platform. Do I still need to tokenize on Myntra?

Why have some rewards disappeared from the Insider Rewards store?

Popular rewards in the Insider Rewards store can go out of stock quickly due to high demand. Don't worry, though! We regularly add new rewards, so check back often or explore other available options in the Insider Rewards section.

I see some rewards I want, but I can't get them. Why?

To successfully redeem a reward, double-check the following:

1. **Sufficient SuperCoins:** Ensure you have enough SuperCoins for the reward.
1. **Spending Limits:** Verify your purchase is within any daily or monthly spending limits.

Yes, you can exchange your SuperCoins for Myntra and brand vouchers in the Insider Rewards section.

Why can't I see my Flipkart SuperCoin transactions on Myntra?

Myntra only displays SuperCoin activity that occurs on its own platform. For a complete history of your SuperCoin earnings and redemptions, including those from Flipkart, please visit the SuperCoins section on the Flipkart app or website.

Who should I contact if I have questions about SuperCoins used on Flipkart or other partner sites?

For any inquiries regarding SuperCoin transactions outside of Myntra, you'll need to contact the customer support team of the specific partner where the transaction occurred. For example, if your question is about a Flipkart redemption, you should reach out to Flipkart customer support.
